INSTRUCTIONS FOR ORDERING.

By particular attention to the Sizes of Doors, pages 6 to 13, and of Windows, pages 14 and 15, before making frames, two advantages will be gained; a great saving of expense, and guarantee of prompt shipment.

In ordering, always use great care in minutely describing goods wanted. In orders for Doors give size, thickness, quality, and how moulded; sashes glazed or unglazed, size, thickness, number of lights, and "Pl" or "C. C.;" Blinds, exact size, plain or painted and trimmed, for frame or brick building, and kind of trimmings.

Stairs, carefully observe directions, page 19. And use the same caution in ordering odd sizes or special work, giving a rough sketch when practicable. By carefully attending to the above, many annoying mistakes will be avoided.

Give shipping instructions very plainly, stating route, and when you wish goods sent.
